## Wfs1000- Face Identification device

### Product Information ➤

WFS1000 is the first face identification device, which adopts USB1.1 interface, can directly connect with iMagic serial attendance-check machine and enable face and fingerprint biometric identification, It can also work as an on-line face recognition device.

### Technical Specification ➤

- Power Supply: 5V supplied by USB;
- Power Current: 300mA;
- Image Resolution: 640x480;
- Active Optical Source Wavelength: 850nm;
- Waterproof Grade: IP54;
- Antistatic: >8 KV;
- Operating Temperature: 0 °C - 40 °C;
- Operating Humidity: 20%-80%;
- Storage Temperature: -10 °C - 60 °C;
- Storage Humidity: 20% - 90%;
- Interface: USB1.1 protocol;
- OEM Service: including trademark, bottom logo and other software and hardware

### Applications ➤

- Identification documents protection, such as passports, driver's license, ID cards, credit cards, etc.;
- Exclusive purposes for prisons, airports, public security offices;
- Security certification of bank safe boxes, ATM and POS terminals;
- Depositors identification;
- Security certification of E-commerce, online banking;
- Candidates identification;
- Authentication on banks, stock exchanges, insurance companies;
- Security control of networks, databases and documents
