## Wr10E- RFI d Wiegand card reader

### Product Information ✚

The wr10 series is an inductive card reader is a type of standard Wiegand 26bits output format, non-contact high performance inductive card reader. It is mainly used as supporting card reading device for the access controller with Wiegand interface and its characteristics are smart and exquisite appearance, simple wiring and stable performance .It is compatible and is used in conjunction as an exit reader with all products from warden which have access control option with weigand-in feature.

### Technical Specification ✚

- . 125kHz Proximity
- . Wiegand 26bits(Default), ABA Standard
- . Format Data Output
- . Less than 0.2 second Response Speed
- . 5-10cm Proximity Range
- . -25□ to 75□ Ambient Temperature,10%-90% ,Ambient Humidity
- . Built-in LED (Double Color LED)
- . Built-in Loud Speaker (Buzzer)
- . DC 5V-16V Voltage. Standard 12V, 70mA Working Current
- . Communication Distance up to 100 Meters
- . Black Color
- . Advanced PVC Material
- . 118\*52\*26(mm)
- . Optional: 13.56 Mhz Mifare Reader
